## DETAILED ACTION

### *Election/Restrictions*

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-7 drawn to a make-up counseling apparatus comprising a computer, a first image display means, a second image display means and photographic means, classified in class 361, subclass 681.
- II. Claims 8 drawn to a make-up counseling apparatus comprising a digital camera, a strobe, a distance sensor, color balance adjustment means, conversion formula calculation means, deviation calculation means, brightness correction means, color correction means. Classified in class 348, subclass 222.1, 223.1 and 224.1.

2. The inventions are distinct, each from the other because of the following reasons:

In the instant case, invention as claimed in **Group I** only teaches to use a computer and display which does not include a strobe, a distance sensor, color balance and correction means as claimed in **Group II**, and which does not include a computer and the two display means. This same reasoning could be performed for all of the groups. See MPEP § 806.05(d).

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Art Unit: 2615

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement is traversed (37 CFR 1.143).
